

25) ACM International Conference Proceeding Series

6 June 2019, Номер статьи 7

5th International Conference on Engineering and MIS, ICEMIS 2019; L.N.Gumilyov Eurasian National University Astana; Kazakhstan; 6 June 2019 до 8 June 2019; Код 149162

Integration data models based on ontology (Conference Paper)

Suleimenova, L., Zhomartkyzy, G., Kumargazhanova, S.

D. Serikbayev East Kazakhstan State Technical University, D. Serikbayev, 19, Ust-Kamengorsk, Kazakhstan

Краткое описание Просмотр пристатейных ссылок (29)

Evaluation of the performance of university staff can be carried out with different goals, consistent with the strategic goals of the institution. To provide an appropriate data set, an appropriate structure must be provided that ensures that neither incomplete nor reliable data will be used. To provide such a structure with the best possible features data from the various available sources should be integrated. The article provides an overview of the existing integration problems and approaches to solving this problem. © 2019 ACM.
